 - [pathworld](#): dont crunch so loud
 - [piandjo](#): the self of the skandas and the generation of appearances are two sides of the same coin
 - [pathworld](#): i love you
 - [silverdale](#): ditto - Path ... lol.
 - [jimhodgkinson](#): Love is never to have say (or feel) you're sorry (regret).
 - [hawklady](#): I have no ego, I'm very humble » haha
 - [lost_horizon](#): lol
 - [pathworld](#): isi that nothing ness like the abyss ?
 - [lost_horizon](#): ego isn't infinite, just over inflated
 - [pathworld](#): yes and i want to say thank you for thsi oppurtunity to be here tonight
 - [piph](#): that is easier said than done
 - [mollymidway](#): the joy of sacrifice
 - [pathworld](#): and take your towel
 - [mollymidway](#): ok » i negotiate first » before giving up
- » helps my gaming, pathworld
- [pathworld](#): lol
 - [mollymidway](#): just just take it easy
 - » it's gonna get way intense anyway by itself
 - [auriah](#): we do? we love it?
- »

- [mollymidway](#): i don't know for sure
 - » if we do or not, sometimes we do
 - » or we'd sure by gone by now
- [lost horizon](#): never thought about it that way, myself
 - » (I have other issues.. lol)
- [hawklady](#): that is beautiful, God awaits for one more person to accept love and let it follow through them gracefully
- [pathworld](#): own it
- [mollymidway](#): be*
- [auriah](#): brb » back
- [pathworld](#): ahhhhhhh
- [piandjo](#): love possesses us, not the other way around.
- [mollymidway](#): i thought annihilation was the first idea we were after? now not?
 - » uh...what get's left after?
 - » fish food? how giant » presence
- [jimhodgkinson](#): How do we open consistently as a practice?
- [piandjo](#): a good question, Jim
- [jimhodgkinson](#): I'm thinking.
- [mollymidway](#): practices are individualized » lol
- [piph](#): "you " can do something to allow annihilation while at some point, the scale gets tipped into a different process, which "you" can neither allow nor survive.. annihilation
- [hawklady](#): practice
- [simmontemplar](#): practice once more time
- [hawklady](#): don't give up
- [mollymidway](#): ok
- [hawklady](#): and not let distraction lead you away, <---this one is for me
- [piandjo](#): don't give up, do it one more time.
 - » Simple i like
- [jimhodgkinson](#): A lead in through prayer and contemplation
- [piph](#): that's a good point, perhaps a mood is the totality of what one could hope for heading straightforward into annihilation
- [sinhog](#): Mood is the skeleton key that opens new doors
- [pathworld](#): its is like a silence
- [auriah](#): we are to describe our own individual "special emotional state" » correct?
- [mollymidway](#): i like that...highlanders...do » like it » but it takes a long time...
- [piandjo](#): seems we each have unique sensory signatures for our mood of love

- [mollymidway](#): or nothing gets left at all » lol, piandjo
- [piandjo](#): Sinhog- skeleton key indeed!
- [mollymidway](#): skeletons are loose » no, get them a key?
- [piandjo](#): skeletons are the remnants of annihilation

» a stepping stone to presence, the only survivor

- [hawklady](#): i like the idea of having an item on me that will remind of what is important to me. To bring back home to love
- [piandjo](#): hawklady--what is yours?
- [mollymidway](#): magnesium flares
- [pathworld](#): i have a small coin like with an angel on it .
- [mollymidway](#): i have some laundered coins
- [piandjo](#): lol molly
- [mollymidway](#): look lovely, but i can't see them
- [pathworld](#): ahh molley is laundrying money
- [mollymidway](#): sh...
- [piph](#): yes, and what is unique about magnesium, is that once lit, it consumes the entirety before extinguishing
- [mollymidway](#): magnesium saves lives and hearts » and skeletons

» and it helps people call down

- [pathworld](#): surrender to it
- [piph](#): it also burns in a beautiful extreme bright white
- [jimhodgkinson](#): Listening to Handel's Messiah while hiking in the hills
- [mollymidway](#): plus it looks great all flared up
- [piandjo](#): magnesium burns under water, doesn't it?
- [hawklady](#): a crystal that i wear
- [mollymidway](#): nice hawklady » a crystal of magnesium » ? » probably magnesium is heavy metal

[piph](#): as i recall from grade school now that you ask, piandjo, yes

- [mollymidway](#): hm...ty all » wonderful class
- [pathworld](#): i want to crakle
- [piandjo](#): if it burns under water--then it will burn in the presence of overwhelming emotions
- [mollymidway](#): the presence cannot be lost
- [hawklady](#): Luminary
- [piph](#): be free of the primate morphology.. sweetly put
- [pathworld](#): did he just describel me ? » lol
- [mollymidway](#): what is the miracle? » this is compulsory question sounds like
- [jimhodgkinson](#): Open to Love
- [sinhog](#): Miracle Whip ?
- [mollymidway](#): yes, it works well on chocolate » sinhog

» he's goin' all advanced, david is, somebody has to save him

» sinhog catch him with pie and yummy miracle whip on top

- [mollymidway](#): hm...nvm..i'm high beta
- [pathworld](#): can u feel the love here tonight ?
- [mollymidway](#): language flows however it can find a way to be heard or communicated

» yes, that is great love leads to laughter, » benefit of beta is it lets go in laughter....and then

- [piandjo](#): path--yes i can. remembering this class is my amulet.
- [mollymidway](#): move to other frequencies » i love you is a rainbow bridge » to somewhere
- [simmontemplar](#): Presence
- [hawklady](#): presence
- [pathworld](#): presence
- [mollymidway](#): or an old rickety bridge to...
- [sinhog](#): Will
- [simmontemplar](#): and ...dearing
- [piph](#): in this machine there seems an energetic distinction between when the machine says "I Love You" and when something, in the machine willing to surrender says "I am in love with you" ...
- [mollymidway](#): and will » i like will
- [piph](#): he Loves beyond Human
- [lost horizon](#): dying before dying
- [pathworld](#): surrender
- [mollymidway](#): dying in grace and love, and then having to get back up as a primate again
- [pathworld](#): surrender to the grace
- [mollymidway](#): what a life
- [sinhog](#): ha ha MM
- [hawklady](#): i do love that LH, die before dying; hopefully many, many times » in this life time
- [piandjo](#): presence and attention--the only two Isrealites to make it to the promised land.
- [piph](#): heehee
- [lost horizon](#): (I die on stage every time I visit the land..)
- [simmontemplar](#): that's funny Piandjo !!
- [lost horizon](#): lol Piandjo
- [piph](#): (yes, LH)
- [jimhodgkinson](#): Yes, thanks Iven
- [hawklady](#): oh i just got that LH, haha
- [piph](#): yes, the noun called nothing. perfect.
- [mollymidway](#): no thing
- [piph](#): that is a critical instruction for anyone headed toward annihilation
- [mollymidway](#): no one ting more than another
- [piph](#): yeah.. anyone who every got there, please do tell

» very interesting chapter

- [hawklady](#): amen
- [piandjo](#): thanks everyone for another interesting class.
- [silverdale](#): Thanks David & Ivan for guiding us through this "intentional contemplation"
...
- [hawklady](#): thank you David, Ivan and all
- [sinhog](#): Thanks David , Iven ,, and Molly ,, and all others
- [jimhodgkinson](#): Thanks David and Ivan and group.
- [mollymidway](#): good nite, bye
- [hawklady](#): love you
- [simmontemplar](#): quite a ride !! ...thanks Iven and David, and of course my companions
