- [Simmontemplar](#): Hello to everyone, back again
- [Lost horizon](#): ok
 - » some ppl seem to be having that problem
 - » hi, Simmon
- [Auriah](#): Yay! thanks Robert! I switched from firefox to safari and got in!
- [Silverdale](#): Welcome Simmon!
- [Simmontemplar](#): Hi LH !!
- [Auriah](#): Hi everyone
- [Bagdafood](#): my firefox does that too
- [Simmontemplar](#): Tks Silver !
- [Lost horizon](#): hi, Auriah
 - » (are you guys using NoScript? that would interfere)
- [Simmontemplar](#): Hi Au !
- [Mollymidway](#): hiya, i'm back now
 - » i didn't drink from the river though
- [Bagdafood](#): i think lots of companies have their fingers in my hardware
- [Mollymidway](#): tell them to be careful
- [Beckysunnybrook](#):
 - » and not get thirsty
- [Bagdafood](#): why
- [Lost horizon](#): good, Molly.. don't drink the water and don't breathe the air
- [Bagdafood](#): really?
- [Mollymidway](#): well depends, bagdafood
- [Lost horizon](#): (from an old song)

- **Beckysunnybrook**: (isn't it an allegorical river Lost?)
- **Auriah**: Hi Simmon! took me a few to get settled
- **Beckysunnybrook**: or is it real! ?
- **Lost horizon**: infested with allegories perhaps
- **Beckysunnybrook**:
- **Bagdafood**: i dont talk to agencies anymore i will flee this scene
- **Simmontemplar**: I was waiting for you
- **Lost horizon**: I don't know, except the forgetfulness is a real experience
- **Auriah**: LOST: I don't know about script...?
- **Lost horizon**: Bagdafood, your chat name changed color
- **Mollymidway**: don't flee bagdafood
- **Bagdafood**: yeah its a personal preference
- **Lost horizon**: ok, just making sure it was on purpose

- » I'm going to try to pay attention to David now
- **Bagdafood**: uh ok MoMiWa your the champ so ...
- » are there supposed to be guys in those chairs?
- **Lost horizon**: yes.. I see two
- **Bagdafood**: or has it always been like this
- **Mollymidway**: oh reboot, you should get some imagery
- **Bagdafood**: what
- **Auriah**: he brought the fire to us, but in this case the higher needs something from the lower levels (dimension) up to the higher
- **Simmontemplar**: To me Invitation begins with a sense of duty inside and a urge to awaken the machine in that moment
- **Mollymidway**: or enter and re-enter
- **Bagdafood**: wtf ok
- **Mollymidway**: i lost my account all day here
- **Lost horizon**: Bagdafood, either try the play/pause button
» or refresh the gorebaggtv page

- **Mollymidway**: figured i'd been hacked
- **Lost horizon**: you should see and hear a broadcast
- **Mollymidway**: but then now i'm back
- **Hawklady**: nice simmon
- **Mollymidway**: and paranoid as ever
- **Silverdale**: I agree with you Simmon ...
- **Lost horizon**: I'm paranoid too, but I don't let it get to me
- **Bagdafood**: got it -- thanks teK Sup.
- **Sinhog**: Justin is making changes (just sold Meebo IM to Google) ,, there will be problems till they get JTV sorted out
- **Mollymidway**: you way high on totemic pole, Lost_horizon
» good think ur paranoid

- **Lost horizon**: don't know about that, Molly... but thanks
- **Mollymidway**: good thing, i meant
- **Bagdafood**: that reminds me to post my "im silly and paranoid" on the goddess blog again
- **Piandjo**: Thanks, Sinhog. My efforts tonite to get JTV to work for me have been frustrating.

- **Beckysunnybrook**: comment: If we are only a fraction of the Absolute, why is it we consider ourselves that way? How can a spec help anyone? Let alone a huge absoluteness?
- **Lost horizon**: Becky, the only answer that comes to mind is.. similarity and resonance
» not scale, for sure
- **Sinhog**: each penny deposited in the piggy bank ,, is of some small help
- **Jim h**: Compulsion - even without understanding what it is, for who it is.
- **Beckysunnybrook**: that makes good logic Lost. and sense
- **Lost horizon**: (unless scale ceases to be important at some level)
- **Silverdale**: Good rsnse - Lost...
- **Hawklady**: so we slowly step forwar, awaken ourselves and realize that absoulte was always in our heart
- **Piandjo**: David, it seems not just a nostalgia to return, but to keep the animal and the angel in contact to create being, which cannot exist without Work
- **Beckysunnybrook**: (I truly do feel there is no scale.) That is one of the biggest illustions.
- **Piandjo**: Yes, i be here.
- **Mollymidway**: gosh piandjo that's a good one. i'll try to remember it
- **Silverdale**: Well sai-Piandjo
» said
- **Mollymidway**: "it seems not just a nostalgia to return, but to keep the animal and angel in contact to create being, which cannot exist without Work." ~Piandjo
- **Piandjo**: got the idea from Jeanne de Salzman
- **Mollymidway**: yeah, well, they were well spoken
» is she in the room with you now?
- **Beckysunnybrook**: Nice Analogy David.
- **Godfrei**: it only takes a spark to create a forest fire
- **Mollymidway**: you don't need to answer piandjo
- **Beckysunnybrook**: I can see this tree idea and the lights. It has a feeling about it.
- **Silverdale**: Molly - Jeanne deSalzaannpassed away in 1990!
- **Mollymidway**: about Jeanne de Salzman
» yeah, like i said
- **Auriah**: the reference library makes me think of the the earth being created as a giant computer to figure out the ultimate question to the ultimate Answer "42"...
- **Mollymidway**: just sayin'
- **Auriah**: From The Hitchhikers guide to the galaxy
- **Beckysunnybrook**: Attention has no scale. That feels real.
- **Markroche**: with respect to Becky's question, this is from spacebuddha.com today on Facebook:
- **Bagdafood**: yeah and the people didnt like the answer .. it took so long
- **Markroche**: "the level of see" means the level of light, the level of light in infinite extension - light, we're all of us not just bonded to each other - we are actually all one thing" ~ EJ Gold
- » what that means to me is that we can affect the Bigger because ultimately we are it.
- **Beckysunnybrook**: That makes good sense, bringing them together is where being happens.
- **Bagdafood**: lol the nthe computer said that the question was *** and that the peopl must make a giant computer to pose the ultimate question .. they wanted the answer first
- **Piandjo**: We don' have to do anything in particular--just keep our awareness of our essence and our machine together in the moment.
- **Bagdafood**: without passing out!

- **Auriah**: yes BAgda... thanks!
- **Bagdafood**: *** theta waves
- **Piandjo**: lol
- **Bagdafood**: or whatever
- **Piandjo**: who said we don't pass out?
- **Bagdafood**: ? (shiva/shakti)? I dunno
- **Beckysunnybrook**: comment: It seems that the only absolute anyone can know is their own self, that is really what it all boils down to. No matter what others are doing or feeling. You need to have your own realization of being absolute in yourself.
» alone.
- **Mollymidway**: i really liked the de Salzmanns, btw
- **Simmontemplar**: I am with you Becky
- **Mollymidway**: life goes on...but i'm glad they wrote stuff they thought
- **Silverdale**: Betsy - nice summarization ...
- **Mollymidway**: just in case
- **Beckysunnybrook**: good to have company Simmon.
- **Bagdafood**: staying stone solid and lazer eyed!
- **Simmontemplar**: xxoo
- **Godfrei**: pour fuel on the fire
- **Bagdafood**: your thinking, gah why aren't there any New Orbs to D-load
- **Beckysunnybrook**: what you described David was being in a cell.. locked up. That is having to stay there with yourself. Your other description was having the choice, sitting in a nice restaurant. What is the difference in your self in those 2 places?
- **Mollymidway**: just breathe deeper, bagdafood, explore the old orbs, challenge them til something hits you
- **Bagdafood**: various hypnosis to keep the eyes open
- **Simmontemplar**: Invitation - That is the Key for the machine be a "Transformational apparatus"
- **Mollymidway**: uh, yes, but use 'em for self hypnosis...ur de boss
- **Bagdafood**: lazer pulse beams
- **Piandjo**: very nice, Becky.
» very nice, Becky
- **Beckysunnybrook**: If like I said about the 2 places you can end up in, either way... who are you?
- **Piandjo**: oops oops
- **Bagdafood**: good to get some BakUp
- **Beckysunnybrook**: I know you cannot change the way things go on the outside always, so get to know the absolute.
- **Mollymidway**: great plan, becky
» i can travel with that one
- **Beckysunnybrook**:
» When you are in a cell... you want those things and you don't want to be still and quiet. It is a connumdrum
- **Bagdafood**: can u experience high levels of presence in public
- **Beckysunnybrook**: It is easy to say you can do it, but it isn't something real to me.
- **Mollymidway**: was thinking about kids that get hit by their parents for "staring into space" rather than doing the things humans do, like being constantly busy

- **Auriah**: yes Bagda
- **Bagdafood**: u know?
- **Mollymidway**: so i interrupted
- **Auriah**: I think so, and have experienced high levels of attentina nd presence in public places and situations. Its a trip. lol
- **Mollymidway**: i do that when i'm high energy, and something hits me "the pond of my biological presence
- **Beckysunnybrook**: in public yes, all the others paying attention to you. how about you paying attention to yourself and getting those high levels of being
- **Susankester**: glad you did Molly
- **Mollymidway**: ty susan
- **Auriah**: yes that too Molly
- **Mollymidway**: it makes me a little shaky when the animal reacts in me
 - » because it is more sensitive
- **Piandjo**: yes
- **Beckysunnybrook**: Parents are going to do that for sure. Kids learn to not stare into space... that is something burnt into them. (that is what the work to me is, remembering that and getting over it)
 - » parents trained them to feel ashamed of being absolute.
 - » because they were trained too.
- **Mollymidway**: yes it's sad for us. but for the absolute it is devastating
- **Beckysunnybrook**: yes.
- **Piandjo**: when our essence contacts another's essence, their is a tangible sensation
 - » there
- **Beckysunnybrook**: the animal has memory and it lives in us, the absolute.
- **Jim h**: Looking directly into someones eyes when both are open also causes Being contact for me.
- **Simmontemplar**: I share that too Jim , thanks
- **Beckysunnybrook**: vibrations all around. how do you channel your vibrations... or even let them penetrate you, so there is a chance to transform by adding say a deep absolute breathe to it.
- **Mollymidway**: yes that is definitve. it's a plus for a species survival, jim & simmon
- **Beckysunnybrook**: (and sometimes looking into the eyes of some, can really cause pain, from the emanation of that one too)
- **Simmontemplar**: so true Molly !
- **Beckysunnybrook**: shoot
 - » good question
- **Godfrei**: slip streaming like with bicycles
- **Mollymidway**: it's like grappling, in the goddgames?
- **Beckysunnybrook**: (can you look into their eyes when they are complaining?)
- **Mollymidway**: to shoot for the higher vibratory sensations
- **Beckysunnybrook**: ah,yes, take an aim.
- **Mollymidway**: or shooting a bow and arrow, or gun or shoot off at the mouth at someone, to project from within to without
- **Beckysunnybrook**: that takes a lot of will
- **Mollymidway**: by sound waves
- **Jim h**: The few times I've felt transcendence have been when I and another person were completely open and we gazed silently at each other. It felt like Absolute looking at the Absolute.

- [Markroche](#): the same FB post I mentioned also had a vid of EJ saying, among other things, that we should strive,
- [Beckysunnybrook](#): yes, sound, without even paying attention to the words tells you so much.
- [Markroche](#): no matter how foul creepy disgusting etc a person might be
 - » to nonetheless focus on the pure light self within them
- [Beckysunnybrook](#): yes!
- [Mollymidway](#): i knew there was a reason i trusted that guy, EJ
- [Susankester](#): Jim, I also have had that experience and feel as if I become one with another
- [Piandjo](#): good question, Becky. It seems hard to look into their eyes when in a negative state because we tend to then share the Essential Self's identification with it.
- [Mollymidway](#): it really helps
 - » but it takes a lot of skill, so if it hurts, please turn away
- [Jim h](#): Susan - yes A timeless moment
- [Beckysunnybrook](#): ha ha. yes. There are other turns to take in this laberinth.
- [Mollymidway](#): or if you do not turn away, keep that thought going...to identify with the clear luminous light and teaching within the eyes of those
 - » whose hurt is blazing from their eyes
 - » for they are they clear light
 - » and are reaching for the clear light within you, no matter what it seems like
- [Beckysunnybrook](#): true. I get dizzy in the laberinth, turning and turning.
 - » running and rushing.
- [Mollymidway](#): the clear light*
- [Beckysunnybrook](#): *
- [Hawklady](#): it's a beautiful poem, and in stillness there is great love
- [Markroche](#): that was real nicely said what you wrote Molly
- [Beckysunnybrook](#): I 2nd that one Mark
- [Auriah](#): the space seems to crackle a bit with electric blue light, when seen from that stillness and silence. then softens to a violet glow
- [Mollymidway](#): uh..we still have 5 minutes, ty mark and yyall
- [Beckysunnybrook](#):
- [Markroche](#): Susan, can you please read what Molly wrote
- [Hawklady](#):
- [Piandjo](#): this invocation is the sweet spot invocationl
- [Markroche](#): I mean what she wrote before that
 - » the bigger paragraph
- [Beckysunnybrook](#): yes, the paragraph up above.. up above.
- [Auriah](#): with soft flowing visible waves of energy. I like the place we reached at the end here.
- [Lost horizon](#): Yes, please read that
- [Beckysunnybrook](#): above and below.
- [Piandjo](#): yes, Auriah.
- [Mollymidway](#): (it's ok, mark, i think he gets the log somehow, david does, maybe even, too, i think)
- [Hawklady](#): yes au

- **Mollymidway**: they put it up on wings of chaos
» that nice website www.wingsofchaos.com
- **Beckysunnybrook**:
- **Susankester**: sorry
- **Silverdale**: Thanks David & Ivan, One and All - for a wonderful evening of "Essential Communion" ...
- **Lost horizon**: Thank you, Molly, for that
- **Mollymidway**: thank you all for coming
- **Lost horizon**: Thank you, David and Iven
- **Auriah**: beautiful Molly
- **Beckysunnybrook**: ONe in all and all in ONE!
- **Simmontemplar**: That's IT Silver !
- **Markroche**: just wanted to hear it out loud Molly cuz it was so powerful
- **Piandjo**: thanks to everyone. a mellow experience.
- **Beckysunnybrook**: thanks guys!
- **Hawklady**: thank you all, and Iven and David
- **Markroche**: thanks All
- **Beckysunnybrook**: thanks Susan
- **Jim_h**: Thanks everyone.
- **Simmontemplar**: Thank you so much to all
- **Auriah**: yes! Thank you David,Iven, SD, and Susan!
- **Hawklady**: yes susan thank you
