

# Zadkiel

---

Now in light the way we find the superspace, the laser-guide,  
human mind amplify  
angel ray, quicken the awakening.

Inside your chamber, radionic flame, Zadkiel cast your nuclear rain  
silent footsteps and madness.

Now my vision is ready to rise  
why was I in disguise?  
soon I will be purified.  
and the barriers of my illusions will be as dust,  
as the voidness forms, the elements will storm  
1,2,3,4,5,6,7th house the violet ray  
our spirit hooks unto thee.

Zadkiel, now I see that my weakness was never true  
but I build the flame as I push on through,  
to be realized, is not far behind.  
Open concept, paradox, pure mind.

Immortal Zadkiel  
Immortal us  
death is promised  
with gold, with trust

Directing vision, stay the course  
my karma is justice, receive the force

integration, assimilation, abandonment,  
cold is the void.

Zadkiel in space, my guides, remember us,  
transform these fears into dust,  
for we do not wish to be unnecessarily bound.

Zadkiel, Zadkiel, in heaven's rain,  
we invoke the presence of your sacred name,  
heat the space with your violet flame, violet flame,  
and banish those things which bind us.

Sacred fire, violet flame  
within the pain, I will remain.

And now longer in prison, I see a glimmer of heaven's perfection in my hands  
and solid matter starts to flow  
my flesh must go and you will show

Sun, moon, planet, star,  
elements of arcane magic.

directing vision, stay the course,  
my karma is justice,  
receiving force.

immortal Zadkiel,  
Immortal us,  
death is promised  
with gold, with trust

assimilation, integration, abandonment  
it is cold when i am void

7th ray, violent flame, angel course, without delay,  
and with consciousness intact, new bonds are made.

samyama, sealed, sealed, sealed.

now we must leave for we cannot stay and remain  
we are mere echoes out your doors.  
do not forget oh gracious host  
we always come back for more.

thank you, peace, goodnight goodnight goodnight.

MC
