- 7:31 [Lost horizon](#) "The vigil is important because we don't know when the moment will arrive"
(thanks, Judy)
- 7:31 [SylviaRichardson931](#) (Star) Works now! thanks Lost.
- 7:33 [108repetitions](#) whenever someone dies or like that drama his karma appears in your lower intellectual center not confuse your thoughts, remember teach
- 7:34 [Melissalorca](#) Orientation
- 7:35 [108repetitions](#) so lie and say your name Ego for construction other reality
- 7:35 [PRO Markroche](#) EJ had said that Neville needed help. And for us to get the message across to Neville 'let go, move on'
- 7:36 [Melissalorca](#) He had to get his bearings.
- 7:36 [PRO Markroche](#) and also EJ had said we were working to get him to the ashram
- 7:38 [Bathra](#) Norton street
- 7:39 [108repetitions](#) no more who want's to be One?
- 7:39 [PRO Gnosticman](#) Letting go to realize that in fact the voyager is the Clear Light.
- 7:40 [SylviaRichardson931](#) (Star) So true Iven
- 7:41 [108repetitions](#) my consciousness respond?
- 7:41 [PRO Markroche](#) it was also a strong experience just hearing so many different readers reading for so long on end
- 7:41 [SylviaRichardson931](#) (Star) right David exactly
(Star) Come to my class on Sunday's I would love to have you!
- 7:42 [Pathworld](#) we did it in d2 for a guy in a traffic accident it was so strong it made me cry and i kept going but couldn't see screen sometime
- 7:42 [PRO Markroche](#) yeah, about the sensation of the higher vibratory body, when reading, noticed at one point that i was reading to the other readers, but then i realized it was all one big vibe and that it amounted to the same thing
- 7:43 [Simmontemplar](#) I wonder...how can that be "experience" or "perceived" as a ..Loop in those realms
- 7:43 [SylviaRichardson931](#) (Star) Correct MarkR
- 7:43 [Gapalz](#) I think that Neville's passing made the vague idea of death a much more real experience for me, and seeing how the ashram responded, seeing the circle, was profound. The synchronicity with this class is also amazing...
- 7:44 [Pathworld](#) mine
- 7:45 [Simmontemplar](#) Silverdale: Bring mine Silver if you please
- 7:46 [108repetitions](#) object consciousness unconsciousness subject subconsciousness ?supraconsciousness? bidimensional so
- 7:47 [Lost horizon](#) (He read Pathworld's comment... yours is coming up, Simmon)

- 7:47 [Simmontemplar](#) Thanks Dan
- 7:48 [SylviaRichardson931](#) (Star) reading to re-familiarize the voyager that they have been in that space before and then they can remember and voyage like business as usual...then they can move on...transition
- 7:49 [Skafooti](#) Yes, I think that is what EJ meant because he said.....regarding Neville.....he is not going to work on Monday. This was the loop.....his business life.....
- 7:49 [108repetitions](#) not easy talk what can remember about bidimensional conversation
- 7:49 [PRO Markroche](#) the subject of being caught in loops is addressed a bit in one of the Norton Street episodes
- 7:49 [Simmontemplar](#) when I recognize my mechanical habits or behaviors, until I realize and change them and regain Presence
- 7:50 [108repetitions](#) bastard comedy norton street if you are not identify with state
- 7:51 [Simmontemplar](#) Thank you Silver; you are awesome !
Thank you Ska and Mark for the input as well
- 7:52 [108repetitions](#) crystal and mike and other monsters so lineal like disney movie but is not
- 7:54 [Lost horizon](#) (In the Norton Street script, Crystal and Mike are the guides, whose job is to remind the bornless one who he is, whether he likes it or not)
- 7:55 [108repetitions](#) what guides, they dont exist you dont know the truth or him
- 7:55 [Lost horizon](#) Yes, they aren't strictly speaking "real"
- 7:56 [Nortiana](#) "The voyager does not need to wonder whether or not this data (Instruction for Transit) will be there when it is needed, because it will be needed. Even for those who have practiced the teaching in life, through constant intentional stress, visualization, and psycho-emotional reinforcement, readings are performed as a back-up just in case something should go wrong... go wrong.. go wrong..." ABD
- 7:56 [Lost horizon](#) Thanks, Nortiana
- 7:56 [Nortiana](#) Anything could go wrong That's the importance of the readings and the readers' work
- 7:57 [Silverdale](#) Good contribution Nortiana ...
- 7:58 [108repetitions](#) you have written the read's book you exist only you common start begins to enter that state absolute wrong
